Professional Summary

Highly motivated Data Scientist and Machine Learning Engineer with strong expertise in Python, SQL, and Data Science. Experienced in building machine learning and deep learning models, performing NLP tasks, and deploying applications using Flask and Django.

Technical Skills

- **Programming Languages:** Python, SQL
 - **Data Science & Machine Learning:** Machine Learning, Deep Learning, Data Science
 - **NLP:** Natural Language Processing (NLP), text preprocessing, feature extraction
 - **Web Frameworks:** Flask, Django
 - **Data Visualization:** Power BI, Tableau, Excel
 - **Tools & Libraries:** Scikit-learn, Pandas, NumPy
-

Projects

Intelligent Resume Screening System

- Built an NLP-based resume screening system using Python and Machine Learning.
- Extracted skills from resumes and job descriptions using NLP techniques.
- Implemented a skill-based matching algorithm.

- Deployed the application using Flask.

Sentiment Analysis using NLP

- Developed an NLP model to classify text sentiment.
 - Applied text preprocessing and machine learning algorithms.
 - Achieved high accuracy on test data.
-

Experience

Data Scientist Intern

XYZ Technologies

- Worked on data preprocessing, feature engineering, and model building.
 - Used SQL for data extraction and analysis.
 - Created dashboards using Power BI and Tableau.
-

Certifications

- Machine Learning with Python
 - Data Science Professional Certificate
-

Education

Bachelor of Technology in Computer Science

ABC University
